

# The Weather Channel

Audience: Website Administrators

The Weather Channel integration is possible with any SchoolFusion website. This weather option is typically inserted into the left side navigation column of the SchoolFusion site.

Please visit <http://www.chino.k12.ca.us/> to view an example.

**Note for District Website Administrators.**

Google Analytics is a custom integration and fees could apply. Please speak with your Implementation Specialist or your Reoccurring Account Manager with any questions.

**Add The Weather Channel to your site.**

**Open a support ticket with the subject line "Integration with The Weather Channel".**

Include the following information:

1. Name all the sites that you would like to integrate with The Weather Channel.

Your Accounts Manager will contact you with a quote for the integration.

Upon receipt of the Purchase Order, the request will be added to the work queue for completion and will be implemented according to the quote.
